AQEET, primarily a Supply Centre, have gone beyond being purely a trading company and is enhanced by the expertise, technical knowledge, experience and personal involvement of our entire staff.

Additionally years of personal association with reputable companies has empowered us to negotiate the best prices with our manufacturers – so as to benefit our customers. We have an edge as we can supply the best products in the market place at the most competitive price, without compromising on quality.

## Objective

Our objective is to become one of the leading suppliers and solution providers in the region by providing quality services and solutions to our valued customers. We are committed to be a go-to supply center for a wide range of products.

## Our Vision

### **Client value creation**

Our biggest priority as an international general trading organization is to bring forth value to our clients in terms of negotiation, product quality and pricing. We believe that value creation is an essential part to client satisfaction and business success.

### **Trustworthiness & Transparency**

Communicating honestly and creating relationships is a big part of who we are. We believe that trustworthiness and transparency are vital elements in retaining and creating successful future business relationships.

### **Integrity**

We abide by the rules and regulations of business society. We believe that communicating ethically and morally towards our customers is essential to corporate growth and strength.

### **Innovation**

Responding innovatively to difficult solutions is what sets us apart from our competitors. We believe that this helps us gain a fresh new perspective to problem-solving.
